

WARNING! Never use a telescope to look at the Sun! Looking at or near the Sun will cause instant and irreversible damage to your eye. Eye damage is often painless, so there is no warning to the observer that damage has occurred until it is too late. Do not point the telescope at or near the Sun. Do not look through the telescope or viewfinder as it is moving. Children should always have adult supervision while observing.

Omegon® Pro Truss Dobsons

Version 09.2026, Art.-Nr. 87321; 88390; 88391

WARNING! Never use a telescope to look at the Sun! Looking at or near the Sun will cause instant and irreversible damage to your eye. Eye damage is often painless, so there is no warning to the observer that damage has occurred until it is too late. Do not point the telescope at or near the Sun. Do not look through the telescope or viewfinder as it is moving. Children should always have adult supervision while observing.

Omegon® Pro Truss Dobsons

Congratulations on the purchase of the new Omegon® Pro Truss Dobson. This telescope will give you hours of fun. It is the ideal companion for visual observations.

This manual cannot be a complete guide to visual observing. We recommend that you go to the assembly section first, assemble the telescope and set the mount up mechanically.

The Omegon® Pro Truss Dobson is a powerful tool. You should take the time to familiarize yourself with the telescope and its controls during the day, so that no precious time is wasted under the clear sky.

This manual is subject to change without prior notice.

Please never use this telescope to look at the sun. Immediate and permanent damage to your eyesight will occur.

Please never let children play with the telescope unattended, especially during the day

Make sure that the main mirror is always covered during daytime. The concentrated sunlight reflected off an uncovered mirror may cause fire.

Please be careful when you carry, assemble or disassemble the telescope or other heavy components and equipment. It may cause damage to the equipment or even personal injury.

Please ensure the entire setup is placed on a stable, flat surface and confirm the support area is big enough to prevent tipping, which could cause equipment damage or personal injury.

Do not wipe the surface with corrosive liquid. Avoid water immersion and exposure to rain.

Unauthorized disassembly is strictly prohibited. Any self-disassembly will result in the warranty being voided.

WARNING! Never use a telescope to look at the Sun! Looking at or near the Sun will cause instant and irreversible damage to your eye. Eye damage is often painless, so there is no warning to the observer that damage has occurred until it is too late. Do not point the telescope at or near the Sun. Do not look through the telescope or viewfinder as it is moving. Children should always have adult supervision while observing.

Components and Installation

WARNING! Never use a telescope to look at the Sun! Looking at or near the Sun will cause instant and irreversible damage to your eye. Eye damage is often painless, so there is no warning to the observer that damage has occurred until it is too late. Do not point the telescope at or near the Sun. Do not look through the telescope or viewfinder as it is moving. Children should always have adult supervision while observing.

Warranty Statement

Thank you for purchasing the Omegon Pro Truss Tube Dobson. To ensure you have the best experience with our product, we provide a two-year warranty service for the Omegon Pro Truss Tube Dobson. Below are the specific warranty terms and conditions:

Warranty Period

This product is covered by a two-year warranty starting from the date of purchase.

Warranty Coverage

During the warranty period, if the product exhibits any material or workmanship defects under normal use, we will provide free repair or replacement services.

Warranty Exclusions

The warranty does not cover the following situations:

1. Human-induced damage: Including but not limited to damage caused by dropping, impact, submersion, excessive use, etc.
2. Unauthorized repair or modification: If the product has been repaired or modified by an unauthorized service provider, the warranty will be void.
3. Accidents or natural disasters: Including but not limited to fire, earthquake, flood, lightning, etc.
4. Normal wear and tear: Such as normal wear and tear, scratches on the exterior, etc.

Warranty Service Procedure

- 1. Contact Customer Service:** If your product requires repair, please first contact the after-sales service of the purchase channel or directly contact our customer service center. Provide a detailed description of the fault.
- 2. Fault Diagnosis:** We will conduct a preliminary diagnosis of the reported fault via email. If further inspection is needed, we will guide you to send the product to the designated repair center.
- 3. Repair or Replacement:** Once the product is confirmed to be within the warranty conditions, we will provide free repair services. If the product cannot be repaired, we will replace it with the same model or an equivalent product of the same value.
- 4. Return Shipping:** The repaired or replaced product will be shipped back to you via courier.

Important Notes

☐ Before sending the product, please ensure it is properly packaged to avoid further damage during transit. ☐ When shipping, include a description of the fault.

If you have any questions or need further assistance, please feel free to contact our customer service team. We are dedicated to serving you.
